Footnote: Companies with (*) are members of the Hydrogen Council. The Council is a global CEO-led initiative with a united vision and long-term ambition for hydrogen to foster the clean energy transition. It was launched at the World Economic Forum in Davos in January 2017 by 13 business leaders representing energy, transportation and manufacturing sectors. The Council now includes close to 150 multinational companies representing the entire hydrogen value chain. It provides guidance on accelerating the deployment of hydrogen solutions around the world, and also acts as a business marketplace.
