Hon. Jose de Venecia, Hon. Chung Eui-yong, Co-chairmen of the ICAPP SC.

We thank you for the opportunity of being able to attend the 4th Meeting of the Asia-Europe Political Forum as Observers. It was good to make our first personal contact after 5 years. Although we have been present in the virtual meetings, it is never the same to make personal salutations and conversations.

I am addressing you because the COPPPAL is greatly worried about the political situation in which Mexico is immersed. As you may remember in my speech given out in last Friday June 10th, I talked to you about the danger our democracy was facing due to authoritarism, how Human Rights are ignored, how crime is taking over our weak authorities. I mentioned how party alliances were beginning to be part of the solution in the Latin American region as competitive political entities in front of populist governments.

In this same sense, our President of COPPPAL, of our Party (PRI) and the mastermind behind the construction of a party alliance named Alianza Va x Mexico, which is conformed of 3 parties historically antagonic, but today together for a common superior objective, Hon. Alejandro Moreno is being chased against the law, he is being openly threatened by the President Andres Manuel López Obrador and is being victimized as opposition as he headed almost all political parties in opposition to the official party, at the Congress, to vote against the Electrical Reform proposed by the President of Mexico. The Electrical Reform was voted against as it was sufficiently studied and was a retrocessive reform which would only empower even more our Federal Electric Commission.

In very few words I am trying to explain how Mexico, a historic referential country in the global community is being endangered by authoritarism and populism, putting at severe risk our institutions, our democracy, and our State of Law.

That is why I am humbly asking in the name of the COPPPAL for your support. I hereby adjoin a draft that would be very helpful for us and which you may freely adjust and modify as you wish. It is important to let you know that the regional vicepresidents of COPPPAL, that is VP of North America, VP of Central America, VP of the Caribbean, VP of the Andin Region and a representative of each country in the South Cone have signed a similar letter addressing the 3 powers.

Thank you very much for your attention and I am at your disposition if any question arises,

Best regards,

Sofia Carvajal Isunza
Executive Secretary
COPPPAL
